## IMC to Provide Air Force's Reliability and Maintainability Information System (REMIS) Capability Support Services

Dulles, VA, 14 January 2021 – [Innovative Management Concepts, Inc. \(IMC\)](#), an information technology services and solutions provider, has been awarded a five-year task order to provide the Air Force's Reliability and Maintainability Information System (REMIS) Capability Support Services for the REMIS Program Management Office, a part of the Air Force Life Cycle Management Center (AFLCMC) Logistics Legacy Systems Division. REMIS is the Air Force Maintenance Enterprise system providing organizational, intermediate, and depot-level operational authoritative information for all Air Force weapon systems. REMIS is a data system for collecting, validating, editing, processing, integrating, standardizing, and reporting equipment maintenance data, including reliability and maintainability data, on a global, world-wide basis. REMIS is also the financial system feeder for cost accounting and depreciation of all Air Force weapon systems.

IMC provides full software development lifecycle activities to preserve and enhance the REMIS service capabilities in support of U.S. warfighters worldwide. IMC performs all technical and operational support for REMIS with expertise in large-scale systems engineering, development, integration, and operational processes. Tasks include systems engineering, Agile development, operations and sustainment, platform support, database administration and help desk support, system and software maintenance, cybersecurity, and training. The task order was a competitive award under the General Services Administration's VETS 2 Governmentwide Acquisition Contract (GWAC). The period of performance began on 1 December 2020.

IMC is supported in this effort by our partner Array Information Technology, a strong Air Force contractor with significant Agile development experience. Together we are committed to supporting the Air Force ensuring continuous capability support for the REMIS to provide available and accurate information those who protect and serve our nation.
