IMC to Provide Cloud Security Support for VA

Dulles, VA – [Innovative Management Concepts, Inc. \(IMC\)](#), an information technology services and solutions provider, is pleased to announce that it has been awarded a 12-month task order (TO) with four 12-month option periods to provide Cloud Security Support for the [U.S. Department of Veterans Affairs](#). The TO, won through the Transformation Twenty-One Total Technology Next Generation (T4NG) acquisition program, begins on 31 January 2018 and continues into 2023.

IMC will provide technical support to VA’s Office of Cyber Security, a directorate under the Office of Information Security, in support of VA efforts regarding the security of Cloud initiative programs and projects of various sizes and complexities. IMC will provide VA support in the following areas:

- Cloud security,
- Architecture,
- Transition and migration to cloud,
- Cloud security continuous monitoring,
- Risk management and assessment,
- Security baselines and templates,
- Assessment and authorization (A&A),
- Authority to Operate (ATO) and Federal Risk and Authorization Management Program (FedRAMP) support,
- Cloud security policy, governance, and compliance,
- Cloud security performance and metrics, and
- Incident response and disaster recovery.

IMC is supported by Armavel, LLC in this effort – a partner with VA Cloud security services experience. IMC and its team member in this effort are committed to supporting VA’s pursuit of its mission to serve and honor the men and women who are America’s Veterans.

###
