IMC Providing Enterprise Services Integration and Modernization for USARPAC G6

Dulles, VA, 10 February 2021 – [Innovative Management Concepts, Inc. \(IMC\)](#), an information technology (IT) services and solutions provider, is pleased to announce receipt of a task order award to provide mission-critical Command, Control, Communications, Computers (C4) and IT system support to United States Army Pacific (USARPAC) G6 Enterprise Services Integration and Modernization (ESIM), its subordinate units, and its strategic and operational partners.

The General Services Administration's (GSA) Federal Systems Integration and Management Center (FEDSIM) made the award on the GSA Veterans Technology Services (VETS) 2 Government Wide Acquisition Contract (GWAC). The VETS 2 GWAC is a vehicle for contracting with Service-Disabled, Veteran-Owned Small Business that is available for use by all federal organizations for IT services. The potential value for the five-year effort, should all options be exercised, is more than \$166M.

USARPAC postures and prepares Army forces, sustains and protects those forces in the theater, supports the development of an integrated multi-domain Joint force, and builds military relationships that strengthen alliances and develop partner defense capacity in order to promote a free and open Indo-Pacific. Through the ESIM task order, IMC will help USARPAC in providing a quality-focused process and capability that enables effective sustainment and modernization of C4 and IT systems. These services include site surveys, engineering, design, procurement, logistics, implementation, operations and maintenance, knowledge management, cybersecurity, and training of new and existing C4 and IT systems. The primary place of performance for this task order will be Hawaii, and other places of performance will include locations in Alaska, Guam, Japan, and South Korea.

IMC is proud to provide these critical services that will help USARPAC achieve its mission and protect and prepare US warfighters in the Indo-Pacific.
